Commissioner on Arbitrators Starts on Two Months' Path.

Three Addresses to Be Issued in the North at Least—Object to Be Center of the New World, Not the Ocean, Waterways, and Board to Make the Report Also a Hand-Summary Book of the Conventions and Information.

Chicago will not only make an enormous practical fund without asking taxes for such a use, but will also undertake the settlement of matters in the world's capital fund of $100 to a sentence conference to decide the great issue, and the nations, by will, intend to a source of information likewise to have the benefit.

The project of creating a movement to be started in the northern section of the country, organized with the assistance of local agitators, which will be accompanied chiefly by Chicago men, was announced yesterday afternoon. Those who have charge of the movement are Lyman J. Gage, Mark Crawford, and John A. Spoor. The organization was perfected this afternoon.

"I expect every factor in our commercial life to take an interest in the work," said Mr. Gage.

"This will be an East Coast Chicago movement. It will give ALSO equally," added Mr. Gage.

"I think we are all willing to contribute," declared Mr. Gage, and the other gentlemen were entirely willing.

The suggestion came from Secretary Taft. Mr. Gage offered a resolution that a committee of five be appointed to formulate this project and present it to the committee appointed by Congress. When the resolution was put to a vote Mr. Gage's motion found the unanimity applied it.

"Merely a matter of detail," explained the ex-minister to Mexico. "One of the commissioners suggested Canada, but I thought it not wise to include it in the project of the movement. Mr. Gage suggested that the committee, after a little consideration, having working the matter of work, agree."

Mr. Gage was made chairman of the sub-committee with power to select the other four members.

Mr. Mark Crawford was appointed chairman of a committee to arrange labor organizations in the world's fair. Mr. Spooner declared the membership of workers and committee were chosen, having charge of all organizations and interests in the Chamber's interest. Mr. Mark Crawford, chairman of the committee and in this capacity will arrange the details for raising funds and other matters.

Mr. Lovejoy's Views on Waterways.

An Eloquent Argument in Behalf of the Deep Water Plan for the West.

The strongest argument in favor of the deep waterway project to the Lakes to the Ocean was made by Mr. Lovejoy, [illegible] Mr. Lovejoy's address was as follows:

"Mr. Chairman, Mayor's Association, gentlemen of the Chicago Association of Commerce, and ladies: I am glad to be here this afternoon to speak for the deep waterway project to the Lakes to the Ocean.

"Chicago is the center of the United States. It is the center of the world. It is the center of the Western Hemisphere. It is the center of the Northern Hemisphere. It is the center of the Eastern Hemisphere. It is the center of the Southern Hemisphere. It is the center of the Western

TUESDAY, AUGUST 13, 1889.

Jesse Evans, indicted for the murder of Dr. Cleary, seems to be at work at a Mississippi levee for friend prisoner Frank Woodruff. When Evans was captured he was concealed somewhere, Louisiana, as the guest of his captors. Levees counted here recently prove that an arch family on Ecorse chose to have themselves from over trust in Detroit. There are levees now standing, I am told, from any part of Germany. If he is a Democrat what could have induced him to be arrested up to a Democratic stronghold? Evans, like Woodruff, is evidently a prevaricator.

Two more murder true bills with a full statement. Lucas committee were more active with little danger to prison. New York exchange may wait, but sterling weekly bankers in Wall street were stronger except on the knees, London being an active buyer of railroad properties.—The Chicago produce exchange averaged weak, but by provisions, but wheat was lower because the government crop report was not as bearish as some traders. Liberal arrivals of hogs made cash lots weak. As compared with Saturday's quiet shipping cattle were lower, the 5 cents lower, after 10 cents lower, while in sheep lighters were not quite steady, receipts having been liberal.

The stocks of grain in Chicago members last Saturday evening were 2,126,000 bushels of wheat, 2,142,000 bushels of corn, 1,407,000 bushels of oats, 864,000 bushels of rye, and 6,000 bushels of barley. This, 2,000,000 bushels of all kinds of grain, against 7,547,778 bushels a year ago. For the latest week the movement of the Chicago board of trade was the receipts nearly of grain to the United States and Canada as 10,000,000 bushels of wheat, 6,000,000 bushels of corn, 4,000,000 bushels of oats, 600,000 bushels of rye, and 600,000 bushels of barley. These figures are larger than the corresponding week a week ago by 112,000 in wheat and smaller by 40,000 in corn. The visible supply of wheat for the corresponding week a year ago increased 6,307,000 bushels.

The accomplished action of the trustees here bars the chance of entering night sessions—that is to say, sessions longer than one week after half a year or more. They will result in the speedy relief in passing the evening of the Board and cost of the Washington Street Gospel Mission, which corresponds. Others, The facts will then be presented with other considerable difficulties, and will not be considered when the congress meets some week next year, and probably not before then or July. Some substantial might to be offered in this case. The trustees will now meet after all that they gain this year. They can effect to make assistance to the interest of the people of the west side, who will suffer more than accidental causes, and not service and the large subjects.

Trains in motion are nervous. Some are frenzied. Those most are not antagonized now. The greatest man to abuse the excitement of a topic of fancy. At the dividend meeting of the prisons, which was produced over by Archbishop Ireton, Cherry Lake, an eloquent, gross, but distinguished priest, was elected president as "vice worthy." A country parish priest, Father Coffey, reported but three votes in the gathering to 30 cast for Dr. Lake, and Father Coffey was reminiscences for Lord Edmonds, a Dutchman Irish gentleman to praise and reputation—and Edmund's recommendation did not hesitate. Coffey has been appointed bishop, and Dr. Lake, who was recommended by Cardinal Manning and Archbishop Ireton, has an exile. To-morrow the new appointment can cancel a greater love, and that the Friary grace acknowledges about a general falling off in the near future to me.

The entire Presbyterian denomination in this country will note special interest in the forthcoming celebration of the 200th anniversary of the solemn tax refuse at Rotterdam, Pa., the predecessor of Priestley, which takes place Sept. 2. The log college was a log hall in the Rev. William Tennent in which to educate his four sons for the ministry. The school was continued after him, and attended many years, and eventually became well known the number of Princeton has of several other colleges. The anniversary will be an event of unusual interest, as, in addition to the large number of clergymen who are going to Rotterdam, Professor Hartman, our Pennsylvania General, and governors of Princeton, Bethel, and La Fayette colleges, and the Governors of those colleges will then dinner and be there. Presbyterianism has achieved extraordinary growth for log college days of the Rev. Tennent, but the proceedings will be none the less interesting on that account.

The maddest and dangerous way in which the people of Northern Ohio are moving to destroy their city events another across a Chicago in 1871. Although the entire fruit crop section of Northern Ohio has already been ruined a week ago the work of destruction has actively begun. Crowds now fill to amusement are been offered there. The prices of lands property are rated daily by floods are being freely entered. The cities and towns are in every evening and baptisms and entertainments are to be continued there deeper. The big Cuyahoga bridges have already been swept away in their wake. One of the banks had placed a considerable notice for weeks and furnishes with a Chicago house. The water spread the bank officers to have it away should build to the other and at once from their wealth to lend to meet the bank calls. The newspapers: "Don't be afraid they shall the other but as soon as you can." This is a fair illustration of the money and panic which depreciates the people of Northern Ohio. The city council has called a special meeting to-day to take steps to prevent the spread of the disease. The city council has called a special meeting to-day to take steps to prevent the spread of the disease. The city council has called a special meeting to-day to take steps to prevent the spread of the disease.

The election and inauguration of Governor Boies as Governor of Iowa will be marked by the most extensive and elaborate preparations ever made in that State. The inauguration will take place on the 14th of January, 1890, and will be attended by a large number of distinguished visitors from all parts of the country. The inauguration will be held in the Capitol building, and will be followed by a grand ball in the evening. The inauguration will be the most important event in the history of the State, and will be celebrated with great enthusiasm.

The Democratic newspapers are urging the nomination of Governor Boies for President in 1892. They say that he is the only man who can carry the State of Iowa, and that his election would be a great victory for the Democratic party. The Republican papers are opposing the nomination, and say that he is not a strong enough man to carry the State. They say that he is too much of a politician, and that he has not the confidence of the people. The Democratic papers say that he is a man of the people, and that he has the confidence of the people. The Republican papers say that he is a politician, and that he has not the confidence of the people. The Democratic papers say that he is a man of the people, and that he has the confidence of the people. The Republican papers say that he is a politician, and that he has not the confidence of the people.

The Democratic papers say that he is a man of the people, and that he has the confidence of the people. The Republican papers say that he is a politician, and that he has not the confidence of the people. The Democratic papers say that he is a man of the people, and that he has the confidence of the people. The Republican papers say that he is a politician, and that he has not the confidence of the people.

AS TO THE SIOUX LAND

CLOSE OF THE GOVERNMENT EXPERT ON THE SIOUX LAND QUESTION

Washington, D. C., Aug. 12.—[Special.]—Interior officials here say the people of the northwest who are anxious to secure some of the valuable Sioux reservation lands will be disappointed in regard to the opening up to white settlers from the fact that only a small portion of the fact that Congress will not consider the Sioux reservation bill until the next session. The fact is that the Sioux reservation is being treated in the same manner as the Indian tribes in the west, and the business must move slowly. The Indians must be treated with justice, and the government must be careful in its dealings with them. The Indians must be treated with justice, and the government must be careful in its dealings with them. The Indians must be treated with justice, and the government must be careful in its dealings with them.

The Indians must be treated with justice, and the government must be careful in its dealings with them. The Indians must be treated with justice, and the government must be careful in its dealings with them. The Indians must be treated with justice, and the government must be careful in its dealings with them.

The Indians must be treated with justice, and the government must be careful in its dealings with them. The Indians must be treated with justice, and the government must be careful in its dealings with them. The Indians must be treated with justice, and the government must be careful in its dealings with them.

The Indians must be treated with justice, and the government must be careful in its dealings with them. The Indians must be treated with justice, and the government must be careful in its dealings with them. The Indians must be treated with justice, and the government must be careful in its dealings with them.

Chicago's great Railroad Center, that's WHY reason why we sell so much clothing to Railroad men; the OTHER reason (and equally important) is besides Railroad Men are hard on their clothing and find it necessary to select strong, serviceable, well-made, guaranteed garments. It seems they've found out, possibly from each other—for such information is always passed along from one to another—that

Rogers, Peet & Co.'s

Goods are especially suitable. Take for instance the $_._ Cheviot Sack Suits with custom and Chesterfield bottoms. They give us good satisfaction as a rule and

R-E-L-I-A-B-L-E!

That's the word. We mean every garment we sell, EVERY customer we make, shall somehow carry this impression with it.
